Would you comment on Jack Anderson's article
on Ft. Hood

I am aware of the Jack Anderson piece. It's not a new subject. Three or four months ago, you will recall, we went through the Defense budget and couldn't find any money for so-called psychic research. I think I'll just stand on that.

Does Gen Odum feel we should
be involved in this kind of thing.

I can assure you Ger Odom doesn't feel there is a "Voodoo Gap", and the article does not accurately represent his views.
